# TRÉVI HARMONY

COMPOSITE POOL

Steel and composite built-in pool

The Trevi Harmony is a built-in pool made of ultra-resistant composite material and features a modern look. Its manufacturing process is similar to that of an in-ground pool. It has a concrete floor and rises only 18 inches above the ground. Much like an in-ground pool, it's possible to have a shallow end and a deeper end up to 66 inches (optional). The durable exterior panels require little maintenance.

# TRÉVI INSTALLATION

INSTALLATION - ABOVE-GROUND POOL

INSTALLATION - HARMONY POOL

Sealing the liner sections with high intensity heat.

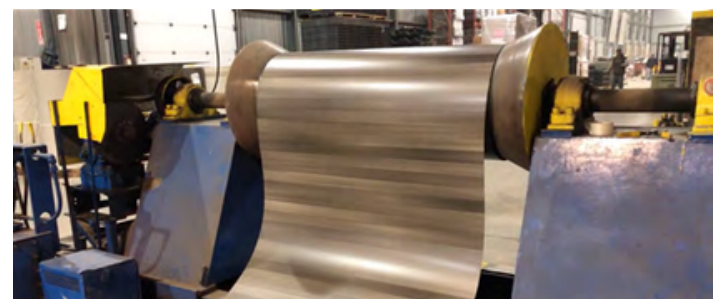

Welding the hanging profile to the vinyl wall.

Perforating the top seats.

Profiling of structural components.

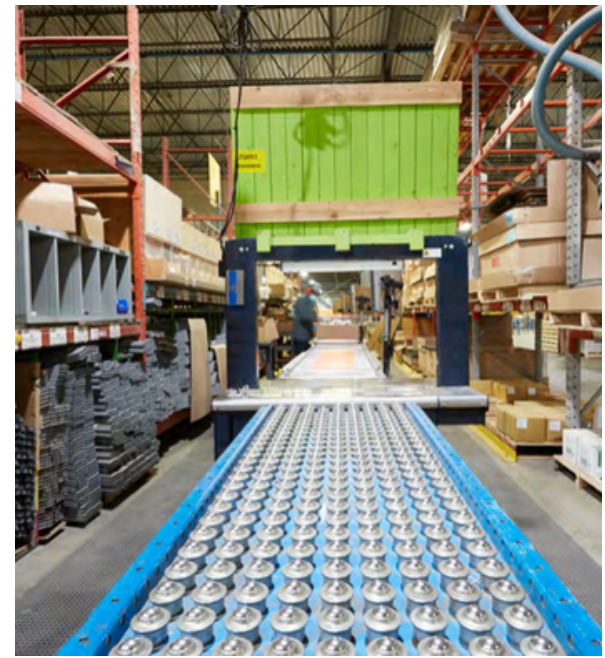

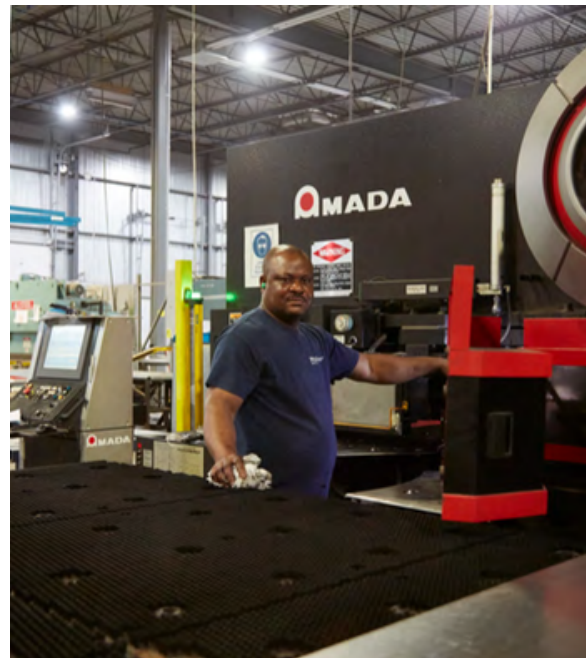

Corrugating the pool walls.

## A THOUSAND AND ONE INNOVATIONS. A GUARANTEE OF QUALITY.

The success of the Trevi brand is based on its ability to quickly identify and respond to customer needs through its strengths in design, innovation and product research and development. By controlling every aspect of product development, manufacturing and installation processes, Trevi ensures that its products adhere to the strict quality standards for which the company is renowned. These benefits also apply to our after-sales service because fewer intermediates or subcontractors are needed.

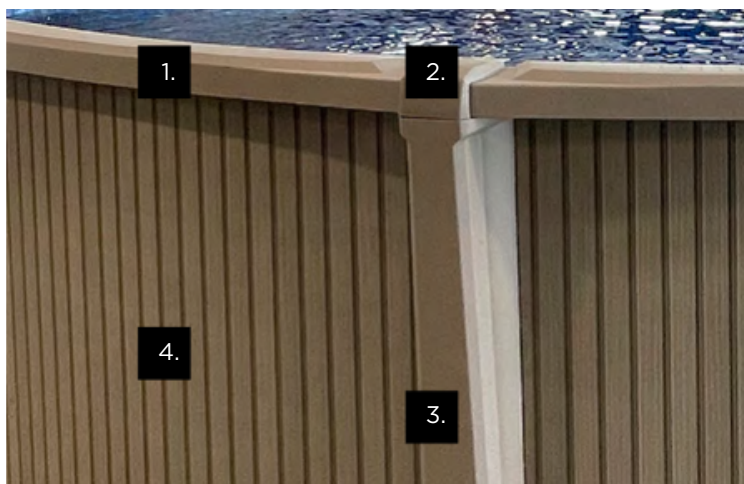

Quebec spas and pools made here, **by us, for you.**

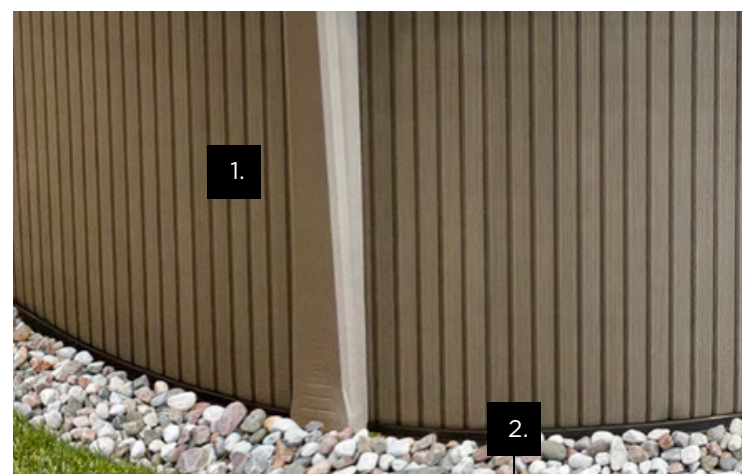

# THE STRUCTURES

## CLASSIC POOLS

### STRUCTURAL ELEMENTS

1. 6-inch round injection-moulded resin top seat
2. Resin seat cap
3. 5-inch injection-moulded resin upright
4. 52-inch galvanized corrugated steel wall

### WALL AND TRACK

1. Corrugated steel wall
2. Injection-moulded resin bottom track and plate

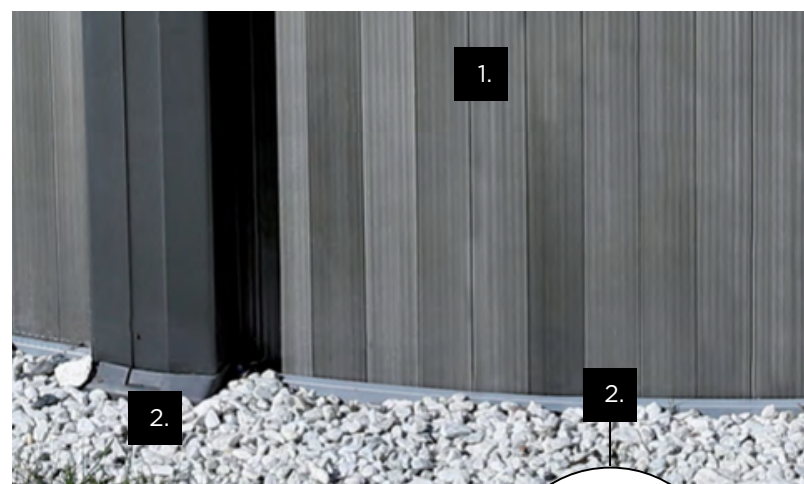

## STEEL WALL SOLAR POOLS

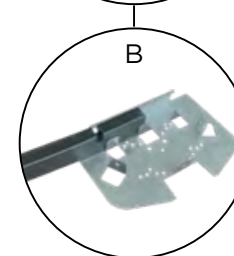

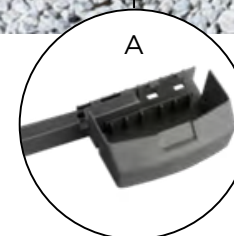

### Structural elements

1. 7-inch extruded resin or galvanized steel top seat
2. Resin seat cap
3. 7" wide upright in resin or galvanized steel, 3" to 4" thick
4. 52-inch galvanized corrugated steel wall - 16 mil thickness
5. LED lights, optional

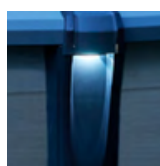

### Wall and track

1. Corrugated steel wall
2. A - Volt and Pulsar pool models:  
Galvanized steel rail with Secur-Lock™ system and injected resin connectors
- B- Unix and Solaris pool models:  
Galvanized steel rail and plate with Secur-Lock™ system

## HARMONY POOL

### Structural elements

1. 7-inch composite top seat
2. Resin seat cap
3. Composite finishing cladding
4. 48-inch steel wall

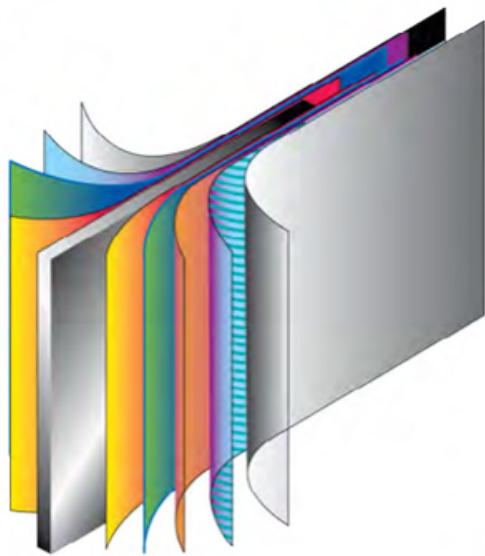

## ENERGY-EFFICIENT WALL

The design's dark colours add a few degrees to the natural temperature of your pool water. Under the sun's rays, the dark wall absorbs light and transforms it into heat. This energy-efficient above-ground pool will save you money.

# STRUCTURES

## WALLS

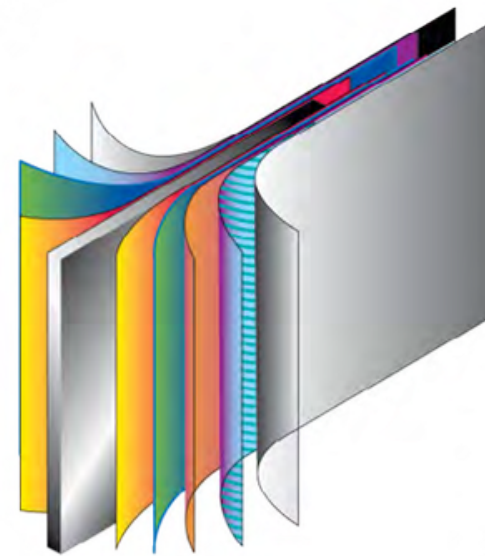

Steel wall

Steel wall components

1. UV-resistant cleat coat
2. Polyester base coat
3. Corrosion inhibiting chromate pre-treatment
4. Steel wall core
5. Corrosion inhibiting chromate pre-treatment
6. Primer coat

Aluminum wall

Aluminum wall components

1. UV-resistant cleat coat
2. Polyester base coat
3. Corrosion inhibiting chromate pre-treatment
4. Aluminum wall core
5. Corrosion inhibiting chromate pre-treatment
6. Primer coat

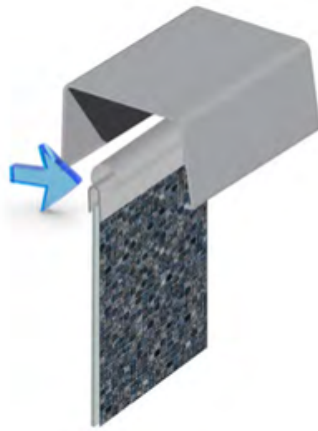

## LINER HANGING SYSTEM

## GEOTEXTILE INSULATION

### Overlap liners

### U-bead liners

#### Treviclip: exclusive liner locking system

Prevents liner setback in case of movement caused by freezing or thawing and increases overall pool stability (available only with U-bead liners). Optional.

#### Geotextile mat

- 275 g/m<sup>2</sup> thickness
- Protects the liner against perforations caused by small rocks
- Extends the life of the liner
- Reduces maintenance and repairs
- Reduces installation time

## PLUMBING WITH SCREW-ON UNION

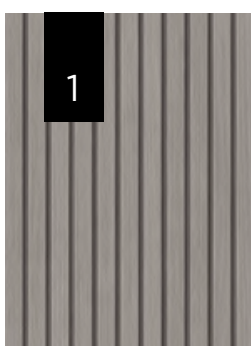

#### Plumbing

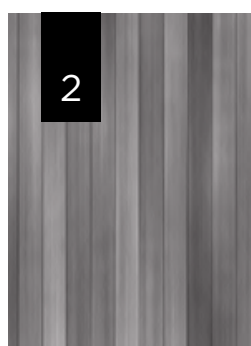

Unscrewable glued union with 1.5" high-pressure piping.

## FILTERS

### Quartz filter

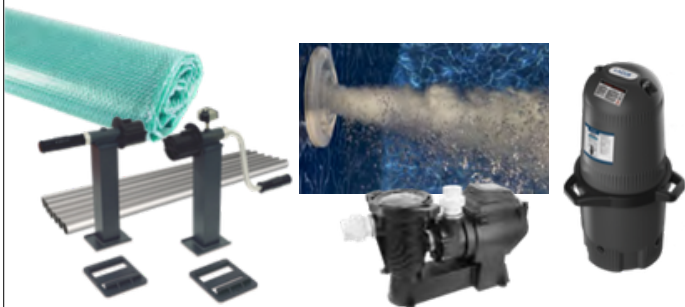

- Large filtration area
- Easy maintenance
- Economical filtration
- Integrated base
- 19" - 21" - 24"

### Azur 200 cartridge filter

- Single cartridge
- Effective filtration area: 200 sq ft
- Very fine filtration: 20 to 25 microns
- Compact design
- Weather-resistant tank

Pieces of equipment offering significant energy savings without compromising performance are also available.

## PUMPS

### Turbo 1.5 HP pump 1-speed / 2-speed / 2-speed programmable

- Super quiet
- 180 cubic inch basket
- Self-priming, higher water flow per HP
- 2-speed version features automatic speed management and a large basket

### Innovaqua pump SPH390-VS – Variable speed

- 3 programmable speeds
- 3.9 THP / 172 gpm max.
- Energy-efficient

### Hydro Québec

Save 70% to 80% on electricity costs by choosing a **two-speed or variable-speed pump**.

## LADDERS AND STEPS

### Steps 2 handrails

One-piece resin steps to fit the pool deck.

### Ladder

Resin ladder to fit pool deck.

### Safety ladder

Resin ladder with self-locking security door.

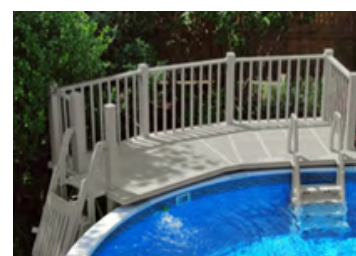

## RESIN POOL DECK KIT

- Includes pool steps, deck steps and a safety gate
- Maintenance-free resin deck platform, posts, railing systems and pool steps
- All resin components are UV protected to maintain their strength and colour
- Powder coated steel support structure and bracing system for strength and protection
- Steel reinforced railing system for strength (resin handrail with interior steel channel)
- Anti-skid surfaces
- Cantilever deck design to eliminate gaps between the deck and the pool's top rail
- The deck is shipped sub-assembled for easier installation around the pool

Three models available

Resin pool deck - 5' x 13'-5"

Resin pool deck - 5' x 5'

Resin pool deck - 5' x 10'

# CUSTOMIZATION OPTIONS

## HEATING SYSTEMS

### HEAT PUMP

- Energy-efficient
- Low operating cost
- Stable temperature
- Extends the season
- Titanium exchanger

### Propane or natural gas

- Mid-range price
- Heats very quickly (approx. 1 to 2°F per hour)

### ELECTRIC

- Low purchase cost
- Install anywhere
- Heats quickly (approx. 1°F per hour)
- Compact

## WATER TREATMENT SYSTEMS

### Ozone system

- Save on chlorine (70%)
- Eliminates 99.99% of bacteria
- Unrivalled life expectancy
- Reduced chlorine odour
- Ecological
- Compatible with all pools

### Salt system

- Reduced salt concentration
- Smooth and silky water
- Easy maintenance
- Save on chlorine
- No odour Ecological

### Chlorinator

- Automatic stabilized chlorine dispenser

## CLEANING ROBOTS

Scan the QR codes to learn more about each cleaning robot

Osprey

Trévi A1

Falcon 2

Typhor 3

Skimmi

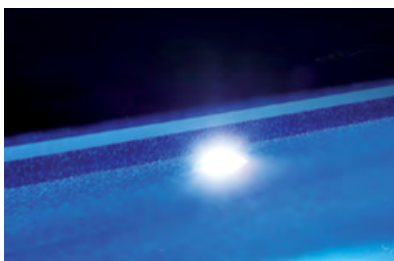

## LED LIGHTING

### Skimmer light

- Remote control
- Adjustable light intensity
- Faceplate for skimmer
- Easy to install
- Choice of colours

### Wall light

- Embedded floodlight
- Remote control
- Adjustable light intensity
- Easy installation
- Choice of colours

### Solar lights for uprights

- Compatible with solar pools
- Solar collector with rechargeable battery
- Automatic brightness detector
- Choice of colours

## SEASONAL KITS

### Trousse d'entretien 2.0

Balance your pool for clean and clear water every time. Apply once weekly.

### Trousse 100-soucis

Convenient chemical kit for a three-step weekly maintenance program.
